

# Rising net conveyor

Used all stainless frame with excellent sanitary

## Features

- Structure based on HACCP (Hazard Analysis & Critical Control Point) & high level hygienic management is possible as a food processing machine.
- Excellent strength & durability, can be used long.
- There is no slipping or zigzag driving since it is stainless chain.
- Stainless net is used for conveying part & high temperature ingredient can be transported without sticking.
- Stainless body can be washed & excellent in drying.
- Arranged a collecting device optionally, gathers spilled ingredient to one position without spreading after reversing the net.

## Specifications

※D dimension can be made within 4,000~6,000mm by 100mm.

| Type     | Belt width (mm) | Dimension A (mm) | Dimension B (mm) | Dimension C (mm) | Dimension D (mm) | Dimension E (mm) | Power (kW) |
|----------|-----------------|------------------|------------------|------------------|------------------|------------------|------------|
| ZN400-50 | 500             | 3,794            | 2,948            | 610              | 4,000            | 1,300            | 0.4        |
| ZN450-50 | 500             | 4,227            | 3,198            | 610              | 4,500            | 1,300            | 0.4        |
| ZN500-50 | 500             | 4,660            | 3,448            | 610              | 5,000            | 1,300            | 0.4        |
| ZN550-50 | 500             | 5,093            | 3,698            | 610              | 5,500            | 1,300            | 0.4        |
| ZN600-50 | 500             | 5,526            | 3,948            | 610              | 6,000            | 1,300            | 0.4        |

Remarks: Can be ordered meeting customer needs. Contact us for details.
